1. Here's a Python program to print "Hello Python":

python
```python
print("Hello Python")
```

2. Here's a Python program to do arithmetical operations addition and division:

python
```python
a = 5
b = 2
sum = a + b
division = a / b
print("The sum of a and b is:", sum)
print("The division of a and b is:", division)
```

3. Here's a Python program to find the area of a triangle:

python
```python
base = 5
height = 3
area = 0.5 * base * height
print("The area of the triangle is:", area)
```

4. Here's a Python program to swap two variables:

python
```python
a = 5
b = 2
print("Before swapping: a =", a, "and b =", b)
temp = a
a = b
b = temp
print("After swapping: a =", a, "and b =", b)
```

5. Here's a Python program to generate a random number:

python
```python
import random
random_number = random.randint(1, 10)
print("The random number is:", random_number)
```
